

BE AN EXPLORER WITH JUST A GLASS.

The Vlachs were explorers. Wanderers. They traveled across the Balkans and Northern Greece; their influence is felt across the entire region. The wine list at Bar Vlaha honors that exploring tradition. We only serve wines from across northern and north central Greece, the areas that the Vlachs made their home and created brilliant wine. So much so that they even have a grape named after them, Vlahiko. We of course will be serving it, don't you worry. So, grab a glass and begin exploring. If you are willing to have two glasses, we will open any bottle on our list. That way you can try any wine you wish. As they say, "All that wander are not lost." Be a Vlach today, explore, wander, and enjoy.
